

I am a listener to the K-Love radio network in the Chicago area and this radio network has been a valuable resource for me. Throughout the day they mention a local community calendar of concerts or conferences that are in my area that sometimes are of interest to me. Without K-Love in my area there would be less programming with a Christian focus that tries to reach people of all ages. I do believe that Klove serves the community by sponsoring events that try to help families be restored and serve in a local way.
